SLIDE N GLIDE™

Was it not Dylan Thomas who wrote “Do not go gentle into that good pool” or something like that. The **SLIDE N GLIDE** is a lot of things but gentle it is not.

The **SLIDE N GLIDE** is a safe alternative entry system. The rider always enters the water feet first.

It will be hard to conceal your excitement as you feel your pulse quicken.

Even the most stern will develop childish grins as they reminisce in delight of a time not so long ago, of a mighty oak, a well worn and knotted rope, swinging them towards a refreshing summer splash.

The **SLIDE N GLIDE** will do for swimming pools what snow boarding did for ski hills.

The elation of riding in complete safety and exhilaration into the cooling waters.

After being propelled into your oasis, a system of counterweights facilitates the anticipated return of the trolley for the next rider in a countless cycle to be enjoyed by all but the faint of heart.

This innovative patented design makes entering a pool with a traditional board or slide, old fashion.

The tough exterior finish and sleek daring design is a perfect union of both function and form.

 DANGER	<ul style="list-style-type: none">• Slide, holding on with both hands with knees bent. Serious injury (Paralysis) can result if head strikes bottom.• Lookout for people and objects below.• No Climbing on or Diving form this Device• Only one person at a time, with Maximum weight of 250 lbs.
